VISTA

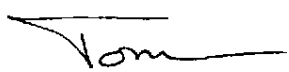

Interoffice
Communication SUBJ: LCA BOARD MEMBERSHIP

The Louisiana Chemical Association Board will have a considerable number of openings later this year. I think a Vista Plant Manager, specifically, John Friend, should be on the LCA Board.

LCA is beginning to exhibit positive leadership in Louisiana for our industry. The Board has a lot to do with directing that activity. I think John would benefit from his perspective.

At this point, I have not talked to John about his involvement with LCA. Board business would probably take 5 - 10 days per year. Most of the meetings are in Baton Rouge.

We need to contact LCA in late June if we want to nominate John. What do you think?
