Subject: RE: Grant Information

Troy,
GA Project Learning Tree received 2 grants from a partnership with the American Forest Foundation/Project Learning Tree Education Program and EPA/ee360 grants to deliver Project Learning Tree educator training to educators:

- 45 Bleckley County Elementary School teachers will receive training, Oct. 10th supported by this grant at Gully Branch Tree Farm
- 39 UGA 4-H environmental educators will receive Project Learning Tree training in late August/early September in preparation for students at GA 4-H centers around the state (BTW, GA 4-H has reached over 1 million students through their camp environmental education programs)

Kathy Mcglauffin, with AFF/Project Learning Tree is compiling an executive summary of this work as we speak and should have to me by close of business tomorrow. Which I will forward to you asap. In addition, I am working on several executive summaries and a YouTube video is live on YouTube to show field trips Earl and I have hosted for 22 years to support the facts of forestry/wildlife/water. Nothing professional, but hopefully will give a snapshot of work with students. The video is live on YouTube: <https://youtu.be/-mjlhdybMcY>

Hope this helps....will keep the info coming.
Wanda

Earl and Wanda,

I need your help in keeping me honest—please correct me if I am wrong.

Gully Branch received a grant through Project Learning Tree Georgia, which received a grant from EPA's Environmental Education Grants, correct?
