Chicago, IL 60611

Dear Denise:

Enclosed are two items that I received yesterday from Marilyn Fingerhut at NIOSH. The first item is a list of Krummrich employees with recorded instances of direct cutaneous exposures to chlorophenols and 2,4,5-T esters, although I can not determine from Marilyn's cover letter whether this information was obtained from the employees' work histories or medical records. The second item is the announcement concerning the Dioxin '87 Symposium which will be held next October in Las Vegas, Nevada.

Sincerely,

Terry L. Leet
