A most sincere welcome to our 27th Annual Meeting at beautiful Lake Tahoe.

The surroundings are conducive to relaxation, enjoyment and hopefully good fortune should you be so inclined.

Once again, this gives us the opportunity to visit together and also review the work of our Association during the past year.

Our meeting program includes both labor and industry health topics and in particular, the developments which have occurred recently. Additionally, we have a review of the cost trends of supporting our Association activities. Your presence and participation will be most helpful.

On the social side we have both time together and to ourselves, and may your visit be most enjoyable and rewarding.
