Hi Rob,

I was not able to make it to this event yesterday but please keep sending me events. I would love to attend in the future for educational purposes.

Thank you,

Kevin Tatulyan

Hey Kevin-- see invite below. If you can make it, this would be a good overview of the outlook for US LNG. I'm gonna do my best to be there.

I know this is incredibly last minute but we did end up putting together an LNG Outlook briefing for the hill. Attached is the invitation but it is tomorrow, March 25th from 12:30pm – 1:30pm in 2322 Rayburn. Please forward along to anyone who would like to join.
