Dick,
Again, → What is the
status of this?
We need to
respond to EPA.

SUBJECT: Vinyl Chloride Epidemiology Study

Can I help? / Bill
Kuryla

Dear Dick:

Attached is a copy of the EPA response to our "FYI" submission on September 9, 1986 concerning the CMA-sponsored epidemiology study of vinyl chloride workers. Please note the second paragraph of page 1 of the EPA October 14, 1986 letter:

"In view of EPA's general interest in Corporate actions that are taken on a voluntary basis in response to chemical toxicity or exposure information, EPA requests that you describe the actions that Union Carbide Corporation has taken or plans to take to notify workers and others about the epidemiologic findings cited in the above referenced TSCA Section 8(e) submission."

Would you please prepare an appropriate response to this inquiry so that we can respond in a timely manner. Thanks.

Very truly yours,

Bill

W. C. Kuryla
