Asbestos Position Paper

#1706

Enclosed is a rather extensive position paper on asbestos and brake linings, which will serve a good purpose if this matter should happen to surface in Troy or Cleveland.

I have also prepared a short statement, which will be useful for an immediate response to any inquiries we might get from the media in the event this does come up.

Would you check all of this out with all of the appropriate divisional people and obtain divisional approval. Next step would then be Southfield for the appropriate corporate approvals and legal clearance.

Bob, I am also enclosing a series of questions which are also likely to be asked if the matter does come up. Some of these may be toughies, but our best bet is to be prepared for any eventuality and know in advance how we are going to handle the situation. If you have any questions, give me a call.
