[Final USWAG Petition for Reconsideration 5.12.2017.pdf](#)

Administrator Pruitt:

Enclosed please find the Utility Solid Waste Activities Group's ("USWAG") Petition for Reconsideration of EPA's final rule titled Rulemaking to Reconsider Provisions of the Coal Combustion Residuals Rule ("CCR Rule"), 80 Fed. Reg. 21302 (April 17, 2015), and a Request for EPA to seek to Hold In Abeyance the Challenge to the Coal Combustion Residuals Rule, No. 15-1219, et al. (D.C. Cir.).

The implementation of efficient, effective and environmentally protective management of CCR under the direction of state regulatory agencies, with support from EPA, is a critical issue for USWAG members. We believe that the modifications to the Rule identified in this Petition will result in a more practical and workable, yet equally protective regulatory program for CCR disposal units. We look forward to working with EPA in making these important and necessary modifications to the CCR Rule.

Please contact me with any questions.
