SUBJECT: Freedom of Information Act Request;
Semi-Annual Report Filed Relative to EPA VCM Regulations

We are being watched. I believe that this particular request came from Air Products. Earlier in the game, other companies were making similar Freedom of Information Act requests.

The one sentence which was deleted made reference to our production being only about 10 percent of normal (taken over the total six-month reporting period).

Air Products will undoubtedly wonder why the VCM content of "stripped varnish" jumped by a factor of about 5 - 10 versus our historical performance.

Very truly yours,

Jack
