Dear Mr. Carey:

Thank you for your telephone call of August 23, 1982, regarding procedures for the installation and testing of A/C pipe. It is understood that you are preparing, under Environmental Protection Agency contract, a training manual for water and waste treatment plant operators. Portions of this manual will cover specific procedures for the installation and testing of A/C pipe.

Enclosed are copies of "Recommended Work Practices for A/C Pipe" and American Water Works Association Manual M16, "Work Practices for Asbestos Cement Pipe." It is also recommended that copies of member company installation manuals be obtained for further information on installation and testing. Sales representatives in California are listed below:

Mr. John Bogart
Johns-Manville Corporation
2600 Campus Drive
San Mateo, CA 94403

Mr. John Himmelberger
CertainTeed Corporation
1801 East Parkcourt Place
Building E, Suite 103
Santa Ana, CA 92701

Mr. James Reichel
P.O. Box 11425
Santa Ana, CA 92711

CAPCO JEN 0023298

A/C Pipe
Producers Association

If we can be of further assistance, please do not hesitate to call.

Very truly yours,

A/C PIPE PRODUCERS ASSOCIATION

J.F. Welch
