CUSTOM FITTED FLOOR MATS

Contour molded, carpet designed rubber mats for all late model cars. As rich appearing as the finest broadloom but rugged, durable and long wearing. The exact shape of the entire floor area is vulcanized into the mat, with recessed felt pad to add greater cushion and insulation. Accurate pre-punching of holes for pedals, accelerator, etc., avoids guesswork in installing. Custom contoured mats are available for front and rear application in most passenger cars. Also available are replacement truck mats that conform to original equipment standards. Rugged heavy-weight 100% rubber design provides less slip on floorboard and cuts heel-puncture damage. Also available are trunk mats for most popular and universal type mats in both flat and contoured construction. (Application is Molded on each mat in lower left border.)
