O. B. LEWIS
CHAIRMAN

NEW YORK May 3, 1937

Dr. R. A. Kehoe
Kettering Laboratory of Applied Physiology
College of Medicine
Eden Avenue
Cincinnati, Ohio.

Dear Dr. Kehoe:

Under date of March 30th we sent you copy of a letter from L. R. Paxton regarding an alleged case of lead poisoning. Today, we have received the following letter from C. A. Peterson of the National Refining Company, which you will find self-explanatory:

"On March 30th you answered our inquiry of the 19th asking for a treatment for lead poisoning which has developed at a service station operated by one of our distributors.

"You stated you had forwarded Mr. Paxton's letter to Dr. R.A. Kehoe whom you felt sure would be able to diagnose the case. Since that time we have not heard from Dr. Kehoe or yourself.

"Can you give us any further information?"

Very truly yours,

O. B. Lewis
