POLICY GUIDE

W. R. GRACE & CO., CONSTRUCTION PRODUCTS DIVISION

SUBJECT	POLICY NO.
USE OF CPD PRODUCTS IN GRACE-OWNED BUILDINGS	601
	PAGE 1 of 1
	DATE APPROVED

STATEMENT OF POLICY

As an expression of confidence in CPD products, when projects financed by the Division are to be carried out in Grace-owned buildings, it is appropriate that, whenever practical, CPD products be used. Where a CPD unit occupies a non Grace-owned building, the wishes of the owner are to be considered. In such cases, CPD products will be used consistent with the lease or other controlling circumstances and will be dealt with on a case-by-case basis.

PROCEDURES AND IMPLEMENTATION

1. It is the responsibility of plant, building or facility management to conform to the "spirit" of this policy by cooperating fully in the use of the Division's products whenever possible.

2. The Central Engineering Department will act as a focal point for and coordinate activities of field, research, technical, sales and purchasing personnel who are working to use CPD products.

3. In most product line areas, it is necessary to gather considerable field experience before commercializing new products or systems. The use of non-commercial products for Division projects provides an opportunity to gain valuable field experience. So that proper evaluations can be made of these products and our experience kept from our competitiors, it is important that their use be limited to Grace-owned buildings. Experience with their use, including problems which may develop, must be communicated promptly by field personnel to the technical group, through Central Engineering. Obviously, only those who have a "need to know" should have access to such information.

4. All expense and capital shop orders will be thoroughly reviewed for conformance with this policy.
