

INDEX

<u>Accident(s)</u>			<u>California, mortality in veterinarians</u>	935
confined-space hazards	1023		<u>Canadian Air Division</u>	
relation to physical disability	940		community psychiatric project	937
traffic, as public health problem	1022		<u>Cancer</u>	
<u>Air analysis</u>			association with appendectomy	948
desorption of atmospheric samples			skin, malignant freckle	972
from activated carbon	1013		<u>Carbon dioxide</u>	
<u>Air pollution</u>			cerebro-ocular effects of poisoning	975
acute eye irritation	1019		<u>Carcinogens</u>	
control			3, 4-benzpyrene in refined paraffin waxes	973
fume incineration	1020		<u>Coal miners</u>	
waste water treatment	1021		pneumoconiosis in anthracite miners	1000
measurement(s)			right ventricular hypertrophy	999
air contaminant emission tables	1018		<u>Copper, intoxication with observations</u>	
<u>Alcohol, toxicity of small concentrations</u>			on ceruloplasmin	983
of hydrolyzed in air	1016			
<u>Alcoholism</u>			<u>Dermatitis, dermatosis(es)</u>	
electrocardiogram and physical disease	938		menthol urticaria	967
"Skid row" syndrome	939		schistosome, in rice field workers	968
<u>Ammonia</u>			<u>Deuterium</u>	
hygienic standard of content in air	1014		ultrastructural alterations in intoxication	990
<u>Antimony, detection in lung</u>	981		<u>Diabetes</u>	
<u>Appendectomy, association with cancer</u>	948		mellitus, in patients with gout	945
<u>Apple packers, epidemic nosebleeds</u>	998		unitary concept of etiology	944
<u>Asbestos</u>			<u>Dust(s)</u>	
dust counting with			epidemic nosebleeds in apple packers	998
impinger	991		<u>Dust sampling, samplers</u>	
thermal precipitator	992		comparison of impinger with membrane	
effect on benzo(a) pyrene carcinogenesis	1002		filter	991
pleural calcification among workers	1003		thermal precipitator for asbestos	992
related to carcinoma and mesothelioma	1006			
sequelae after exposure to	1004		<u>Emphysema, pulmonary</u>	
<u>Asbestosis: clinical, radiological, and</u>			arterial blood flow	964
physiological findings	1005		correlation with bronchitis	961
<u>Asthma, associated with bronchopulmon-</u>			degree in autopsy material	963
ary geotrichosis	956		effects of slow respiration rate	960
<u>Atlanta, 1964 typhoid fever epidemic</u>	957		familial diathesis	959
			gross fixation methods	965
<u>Benzene</u>			interalveolar air drift	966
nephelometric method for determi-			pathologic study of young lungs	962
nation in air	1017		<u>Ethylene chlorohydrin</u>	
poisoning			residues in spices after fumigation	987
osmotic fragility studies in	989		<u>Ethylene oxide, effect on spice fumigation</u>	987
rotogravure press	988			
<u>Benzo(a) pyrene, effect of asbestos on</u>			<u>Fallout, radionuclides in foods</u>	1012
respiratory carcinogenesis	1002		<u>Farmer's lung</u>	
<u>3, 4-Benzpyrene</u>			identification study	995
in refined paraffin waxes	973		in eastern Pennsylvania	996
<u>Beryllium, roentgenologic patterns in</u>			introduction to symposium	993
longstanding disease	982		observations in chest survey clinics	994
<u>Blood, transaminase determinations</u>	943		<u>Fluoride(s)</u>	
<u>Books</u>			measurement in air and plant tissues	976
mental health with limited resources	926		<u>Food(s), radionuclides in</u>	1012
selected knowledge or skill basic			<u>Freckle, is there a malignant?</u>	972
to occupational health nursing	928		<u>Fungus infection(s)</u>	
static electricity	930		bronchopulmonary geotrichosis	956
what about lightning protection?	929		calcification in pulmonary aspergilloma	955
Your Heart Has Nine Lives	927		subcutaneous nocardiosis	969
<u>Bronchitis</u>				
correlation with pulmonary emphysema	961		<u>Gasoline, toxic psychosis from fumes</u>	985
<u>Burns</u>			<u>Glass dust, biological action</u>	1007
silver nitrate treatment	970		<u>Gout, diabetes mellitus in patients</u>	945
sulfonamide in control of wound sepsis	971
