College of Medicine
Eden Avenue
Cincinnati 19, Ohio

Dear Dr. Kehoe:

I feel somewhat embarrassed to have you put into repeated effort in behalf of my questions. However, I am indeed very grateful to you for the very illuminating letter of March 17th which reconciles in my own mind some of the controversial reports.

I had already finished the revision of my chapter on toxicology when I received your first reply to my inquiry, but when I have the proofs I shall try to make some corrections which I believe are very well worthwhile on the basis of your authoritative knowledge in this field. I am sure that many doctors will be very grateful to you if your time would permit to put your observations into the literature as you are planning.

Again, many thanks for your untiring cooperation and your very helpful advice.

Very truly yours,

R. K. Richards, M.D.
