Subject: BRAKE LINING AVAILABILITY

During the April 2nd Region Managers meeting comment was raised relative to lining availability at OEMs. Attached is a matrix listing the standard lining on Eaton brakes at the OEM level. We are also including a listing of linings indicating the aftermarket designation where available. Please note that the lining listings represent industry available linings, some of which have been obsolete from standard production, or not yet approved by Eaton.

Please distribute this information to all Regional personnel.
