Gentlemen:

We understand that you have a bulletin entitled "Paints, Pigments and Dyes" dated December 1945. In this bulletin you cover the pigments which are considered poisonous and cannot be used for children's toys. We would like to have a copy of this bulletin and would like very much to have you give us any later bulletins which have been put out by the U. S. Department of Labor, or would appreciate any reference you can give us to legislation in the states of Maryland and Ohio which we understand have already passed such a law controlling these pigments, or have intentions of so doing in the very near future.

Thanking you for this information, we are

Yours very truly,
