

Resume prof. dr. ir. M. Masen

Marc Masen is associate professor in Tribology and Mechanical Engineering Design at Imperial College London.

After obtaining his PhD he spent several years in industry, after which he returned to academia. Within the field of tribology, his research ranges from wear mechanisms and design for sustainability to biotribology and soft materials, which includes elastomers and biological tissue.

Marc is the recipient of the Imperial College President's Award for Excellence in Education and the 2022 Institution of Mechanical Engineers Donald Julius Groen Prize.
