

November 28, 1950

Mr. C. H. VanHartesveldt,
The Thompson Vita-Meter Corporation,
6402 Cedar Avenue,
Cleveland 3, Ohio.

Dear Mr. VanHartesveldt:

I send you herewith an account of the expenditures made in our work for your company during the third quarter of 1950. This is sent to you primarily for information, and it does not involve any need for action on your part at this time.

The work that is being done at the present time, as you will be able to see from the account, relates to the investigations carried out on various groups of men. No animal experimentation is in progress, and obviously, none will be undertaken until you give the word.

Since I returned from abroad in the late summer and early autumn, I have been so swamped with things demanding to be done, that I have not had occasion to look for anything else to do. Therefore, I have not undertaken to write up the experiments on the animals and to prepare a report. If there should be any reason for getting at this, it would be well if I were to know in advance, since at present, and, so far as I can see for some time to come, I shall be working hard to keep my head above the water level. However, I expect to have some time to myself after the first of the year, and this work can be done at that time.

With kindest personal regards,

Cordially yours,

Robert A. Kehoe, M. D.
