Subject: RE: Meeting request - chemicals safety during the next EU institutional cycle

Dear [REDACTED]

First of all, I am really sorry for my late response.

Thank you for reaching out to us. It would be a pleasure to exchange the EU chemical product strategy together.

Would you be available for a meeting on Friday, December 8th in the afternoon, Tuesday afternoon, or Wednesday from 2 to 3 p.m.? Any of these time slots would work well for us.

Best regards,

[REDACTED]

Subject: Meeting request - chemicals safety during the next EU institutional cycle

Dear [REDACTED],

I am contacting you on behalf of the European Environmental Bureau and CHEM Trust - we are together campaigning for toxic-free products and advocating for a reform of the EU's chemicals safety policy.

In particular the PFAS scandal shows the inadequacy of the current rules. But unfortunately, the long-awaited revision of EU chemicals safety law, the REACH regulation, will not happen under this Commission.

We would have hoped that the Belgium presidency would have started the legislative work. Now, the presidency's opportunity and challenge will be to keep and strengthen the momentum for the policy reform.

We would appreciate having the opportunity to discuss with you about the prospects for next years.

More specifically, we would like to understand and explore how the chemicals safety topic can fit within the 5-years strategic agenda for 2024 - 2029.

Kind regards,

[REDACTED]
