July 24, 1984

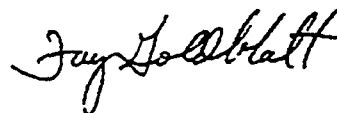

Mr. R. S. Suga
Abex Corporation
485 Frontage Road
Burr Ridge, IL 60521

Dear Mr. Suga:

Thank you for the ceiling panel which you sent for asbestos fiber analysis under analysis request number 0353. I have examined it by both polarized light microscopy and dispersion staining. The amounts of fibrous components found are given on the enclosed summary report form as estimated percentages by weight; quantities may be expected to vary depending on sample homogeneity.

The sample will be discarded after two weeks if I do not hear from you further. The enclosed invoice covers the costs of this analysis. If there are any questions regarding this report, or if I may be of service in the future, please feel free to call.

Sincerely,

Fay Goldblatt
Principal Microscopist
