Dear 5.1.2e [redacted]

Thank you very much for sending us the minutes from the meeting. We have no comments regarding those minutes of the meeting. It is a very good reflection of the discussion.

As a brief follow-up we wanted to share with you additional information and a point of clarification regarding the processing aid for PE and PP applications. You will find in the link below a video explaining its function and a brief description of its use.

<https://www.extremematerials-arkema.com/en/markets-and-applications/chemical-industry-and-general-industry/fluoropolymer-processing-aids/>

While PVDF is indeed used in industrial setting, the end application is largely a consumer one (e.g. packaging). It sets it apart from the rest of the PVDF applications that are purely industrial (incl. the end of life).

You will also find attached a summary of the key information shared during this meeting.

We hope this is helpful. We remain at your disposal if you need any clarification.

Best regards,

5.1.2e [redacted]

Fluoropolymers
