10300 Olive Boulevard
St. Louis, Missouri 63166

Dear Kevin,

Enclosed are copies of a proposal for public communications support for the St. Louis Safety Council RMP Coalition. The proposal is submitted jointly by Alliance Communication and URS Greiner Woodward Clyde.

The proposal sets the conceptual foundation for the approach the companies will take if selected for the project. A more detailed work plan, scope of services, schedule, and fees will be developed later in conjunction with coalition members.

Combining the talents of Alliance Communication and URS Greiner Woodward Clyde adds value through a seamless approach that enhances credibility through message and technical consistency.

Copies also have been sent to John Henshaw.

Dan Oberle and I will be away from our offices in meetings on Tuesday, but will check for messages. We look forward to working with you and will see you at the St. Louis Safety Council meeting on Friday.

Sincerely,

Nancy Pollock
