EMPIRE SUPER QUALITY HOUSE PAINT PRIMER

Stir the paint thoroughly before and occasionally while using. When removing the paint from the container of paint, it is advisable to pour the top liquid in the can into a separate container, stir the remaining pigment and liquid to a smooth paste, and then gradually return the removed liquid to this container. Be sure all pigment and liquid are thoroughly mixed.

Remove loose particles of old finish with a wire brush or sandpaper. Surface must be clean and dry. One coat of Empire Super Quality House Paint Primer will properly prepare the surface for the finish coat. Shellac all knots and holes before painting. Putty all nail holes and caulk window frames after painting. Allow ample drying time between coats.

**CAUTION! COMBUSTIBLE!
CONTAINS LEAD.
HARMFUL IF SWALLOWED.**

Keep away from heat and open flame. Do not apply on toys, furniture, or interior surfaces of rooms which may be used by children. Avoid contact with skin and breathing of vapor or spray mist. Close container after each use. Provide adequate Ventilation.

KEEP OUT OF THE REACH OF CHILDREN.
