OLD DUST COUNTS

My very sincere thanks to you for the old dust counts. I find in checking that the oldest records that we have go back to only 1952, at the time I was first made Manager of the Plant.

It is not yet clear in my mind just how we will go about using this material advantageously, but I still think it is a distinct possibility.

I am sure this was a great deal of trouble to you and your thoughtfulness is greatly appreciated.

JERRY MITCHELL - Manager
