

February 14, 1933

Dr. Graham Edgar
Ethyl Gasoline Corporation
Chrysler Building
New York City
New York

Dear Doctor Edgar:

3 I have your letter of February 8th in which you referred to the question of aviation gasoline in foreign countries. I am expecting to be in New York next week and as my plans go, I shall probably be there Monday morning. If not, I shall certainly be there on Tuesday. There are a number of things which I wish to see Mr. Mittnacht about if he is planning to be in, and I should find it very convenient to discuss this additional matter with you and with Mr. Webb, if he is to be there.

I would appreciate it very much if you would drop me a line and let me know whether or not either one or both of these matters can be accomplished. If, indeed, Mr. Mittnacht is planning to be away, I could conceivably settle all the matters which I have on my mind by discussing them with Mr. Webb. I should like very much to do this if it is at all possible.

I enclose herewith a copy of a letter which I have written in response to your note and enclosures of February 7th.

I enclose, also, copies of two letters, together with my reply to the first, recently written to me by E. A. Bingham of Vincennes, Indiana, whose case has been considered previously. I have no doubt there is a file on the subject in the New York office, and I am sending all these copies for the obvious reason that you should be in possession of all the facts up to date since it seems certain that there will be some further stir over this case. For the present it seems to me that there is nothing to do about it.

Very truly yours,
