
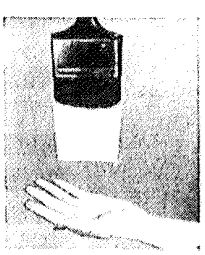
You can catch the drips from regular paint by spreading this newspaper...

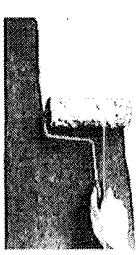
or you can use new Du Pont Lucite® Wall Paint and avoid the usual mess!

NEW DU PONT LUCITE® goes on easy, doesn't drip or splatter like regular paint! Try it!

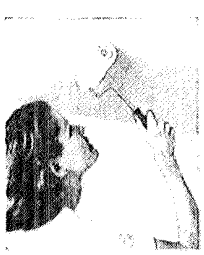
No messy mixing or stirring! "Lucite" comes all ready to use the moment you open the can, with no time wasted.



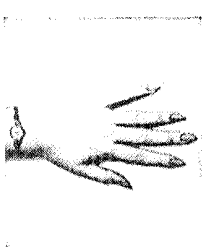
Clings to brush or roller! No need to scrape any off. You paint faster, with fewer strokes and dips.



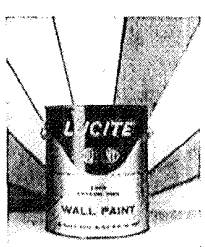
Stays where it's put without sagging, streaking or running down the wall. Spreads out smoothly with brush or roller.



Doesn't drip or splatter like regular paint! It's thicker, richer—stays on walls and ceilings, off clothes and hands!



Quick drying! Beautiful flat finish in just 30 minutes. Clean-up is quick and easy, too—with plain soap and water.



Wide range of modern colors, with matching Ducos Satin-Sheen Enamel for all your woodwork. Free color cards too.

Buy new LUCITE® WALL PAINT at your local paint dealer's:
