Subject: DAP, Inc.
DAYTON OHIO

Had nice (& I believe fruitful) meeting with Jim Bonfiglio, Tech Director and his staff & Dr Sage and Larry Poorman.

Former Tech Director, ZITS OBERA, is gone, so in addition to discussing the new fiber handling possibilities I learned from you, I leaned pretty heavily on the idea that we haven't been given consideration in the past few years, for reasons known only to Obera. They will look again at our 7TF02.

They have bad OSHA problems — lots of dust. Our services were offered.

BILL O'REILLY
