Dear Mr. Tegethoff,

We would like to evaluate the condition of the therminol oil used in our Carbon Plant. Our laboratory would be capable of running everthing except viscosity. You sent to us at one time, test methods for therminol oil, but we seem to have misplaced them. If possible, please send us another copy. If this cannot be arranged, we will send you a sample of our oil for testing.

Thank you very much.

Yours truly,

Jim McKissick
