

3224 Grand Concourse,
Bronx, New York City
August 25, 1924

Dr. Cecil K. Drinker,
School of Public Health,
Harvard Medical School,
Boston, Mass.

Dear Sir,

At the suggestion of Miss H. Curtis,
of the Women's Educational and
Industrial Union, I am applying
to you concerning a vacancy on your
laboratory staff.

I am a graduate of Cornell University
and Columbia University (M. A. in Biology),
and have had several years' work in
laboratory physics and chemistry -
including physical, organic, and
colloidal chemistry.

I have had some experience in
doing scientific abstract work, and

HARVARD MEDICAL LIBRARY

FRANCIS A. COWLEY
LIBRARY OF MEDICINE

have a reading knowledge of French
and German.

I should be very glad to hear of
any opening you may have for which
I might qualify.

Very truly yours,

Thos. F. Menkin.
