Let Us Paint Your House

Q Maybe your house can go another year without paint, but should it? It is economy to keep the surface so well covered that it cannot decay. If you neglect this protecting cover of paint the winter's rains may cost you much more than the painting.

the famous house paint made by the Sherwin-Williams Company—will last for years without blistering, peeling or being affected by the weather. It's the kind of paint we would use on your house.

If you wish us to paint your house this fall, your order should be in at once. We are already booked for several weeks ahead. Phone today and make arrangements. We're interested in preserving your property.
