Dallas, Texas 75270

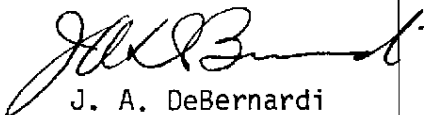

Re: LA0003476

Dear Mr. Stender,

Your letter of May 22, 1980 states that temperature at outfall 001 at the above referenced permit is not being monitored and/or reported as required in our permit. Further, that nonsubmission of the required information constitutes a violation of the conditions of the permit, and that all future Discharge Monitoring Report (DMR) Forms should be submitted in accordance with the terms of the permit.

Upon reviewing the wording in our permit, we have confirmed a monitoring requirement for temperature which we have adhered to. However, we have not been reporting it on the DMR forms but will do so in the future.

Sincerely,

J. A. DeBernardi
CONOCO VCM Plant
