DOC#: FOS015

DOCUMENT DESCRIPTION: Memo

FOSECO, INC.

INTER-COMPANY AND INTER-DEPARTMENTAL CORRESPONDENCE

TO P.A. Partington

FROM W.J. Brenner

DATE: February 24, 1971

SUBJECT: RM 265A (Asbestos)

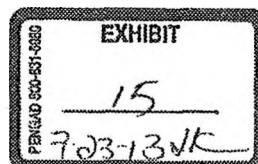

Our Asbestos consumption this year is averaging 188M lbs. per month verses the 1969 average of 123M lbs. per month. This unexpected increased in consumption has caused a serious reduction in our inventory and is the reason we have failed to stock-pile 25 tons on the patio. I intend to immediately increase my ordering levels to anticipate continued usage at a 190M per month rate. This means that our in-plant storage requirements will increase as follows:

Old Requirements	Min 75M lbs.
	Max 120M lbs.

New Requirements	Min 95M lbs.
	Max 150M lbs.

This is exclusive of the 50M lb. patio supply.
