SUBJECT: Meeting with OSHA on the Asbestos Standard

Tom Scott, Industrial Hygiene Coordinator, is going to attend a meeting at ORC in Washington, D. C. on August 27 to discuss the new asbestos standard. Representatives from OSHA will be in attendance at this meeting and will be prepared to answer questions about interpretations and compliance activities related to this standard.

If you have questions that you would like for Tom to raise at this meeting, please contact him directly.

Also, if you have questions about interpretations of the Standard and need immediate help, we can try to provide interpretations by reviewing the preamble to help determine what OSHA intended when they wrote the standard.
