Safety Program

REFERENCE

TO : Each Unit/Craft Safety Representative and
Contact Supervisor

As discussed by the Plant Manager in his presentation on September 6, members of the Hourly Safety Committee and Safety Inspectors will be contacting, visiting and working with each Unit/Craft Representative within the next few days.

The purpose of this visit is to secure the active participation of each Unit/Craft Representative, as we set out to reverse the current unfavorable trend of safety performance at this location.

HOURLY SAFETY COMMITTEE INVOLVEMENT

1. Develop plan where members of the Hourly Safety Committee will traverse the plant and observe safety violations.
2. Establish how many to function in this at a time. Assign areas or not.
3. What training required. Consider using "Guide To Accident Prevention" as text.
4. How long will this program exist.
5. How and to whom should violations be reported. Create system for plant wide data collection.
6. Start this program Sept. 6.
7. Publicity needed for this program.

Ryan : Don't take away from Unit Craft Reps.

Morrid : Ivory Kimble P.E. thinking about resigning can't get away to discuss safety problems
