From J. A. DeBernardi
Date August 27, 1979
Subject Regulated Area - Refinery Dock #3

The purpose of this letter is to inform you of actions which have been taken at Refinery Dock #3 during VCM ship loading to restrict access to this regulated area. The actions are considered necessary to assure Conoco's compliance with OSHA regulations related to regulated areas. I have attached correspondence with Mike Johnston, Industrial Hygienist at the Lake Charles Refinery, on this matter for your information.

I am requesting that you inform the appropriate agents and/or shipping companies of these changes as quickly as possible. I would appreciate it if you would copy me and Mike Johnston on any correspondence you send out related to this matter.

If you have any questions related to the changes, please give me a call.
