MAR 23 1984

Dallas, Texas

Welcome to the 91st annual edition of MacRAE'S Blue Book. Over the years, we've worked hard to make sure that MacRAE'S lived up to its reputation as America's *Original* Industrial Directory. Not only did we set the standards by which an efficient directory should operate, but we've also dedicated ourselves to coming up with fresh ideas and innovations to help you keep pace with an ever-expanding marketplace. In other words, we've stayed in business by letting millions know that you're in business.

Some of the recent additions to MacRAE'S arsenal include: MAXCOM, our toll-free lead referral system; our incorporation of State Industrial Directories, a state-by-state reference to manufacturers and their decision-makers, designed for use by both buyers and sellers; the Verified Directory of Manufacturers' Representatives to aid firms in selecting qualified representatives; and the Manufacturers' Agents' Guide for representatives seeking interested firms to represent.

Of course, all information pertaining to the 50,000 companies listed in this edition has been thoroughly updated. To the best of our resources we have listed only the most recent addresses and phone numbers, sales offices, products offered, and capital ratings.

For instructions on how to use this five-volume set, refer to the contents page.

Your five-volume MacRAE'S Blue Book includes a **Corporate Index**, a **Trade Name Index**, and a **Product Classifications Index**. The following overview will help you make the most efficient use of this reference and its special features.

Corporate Index

Volume 1

When you know the company name, use the **Corporate Index** to find out where to contact it. This volume lists company names in alphabetical order, with addresses, telephone numbers, sales and branch offices, and capital ratings. Also includes a brief description of each firm's products and/or services.

Manufacturers' catalog pages are grouped alphabetically at intervals throughout the index.

Trade Name Index

Volume 1

When you know the trade name of a product and wish to find the manufacturer, use the **Trade Name Index**. This section includes registered and non-registered trade names of companies listed in the Corporate Index, with their addresses.

Product Classifications

Volumes 2, 3, 4 and 5

When you are looking for manufacturers of a specific product, turn to the appropriate category in the **Product Classifications Index**. Here company names are organized alphabetically under product classifications, with their most current addresses. Advertisers' names are printed in boldface and include phone numbers; these listings may refer you to an advertisement in any of the five volumes for more information.

Manufacturers' catalog pages are arranged in alphabetical order following appropriate product classifications.

Capital Rating System

Most companies listed in Volume 1 are assigned a capital rating. This appears as a one-, two- or three-digit number in parentheses, directly after the company phone number. You can calculate a firm's invested capital by multiplying its rating by \$100,000. For instance:

(1) = \$ 100,000
(10) = \$ 1,000,000
(100) = \$10,000,000

Capital ratings may also be listed by fractions. For example, ratings of $(\frac{1}{4})$ or $(\frac{1}{2})$ represent a rating of \$25,000 and \$50,000, respectively.

Reader Service Cards

Bound into each volume are postpaid reader service cards. If you wish to receive further information about MacRAE'S advertisers, fill in the reader service numbers (found following each advertiser's listing in the Corporate and Product Indexes) and drop the card in the mail. You can also request information about non-advertisers by writing in the company names.

Advertising Inquiry Card

If you are interested in advertising in MacRAE'S complete and mail the postpaid card bound in the front of Volume 1. We will furnish you with detailed information.
