**Subject:** NAHB Statement of Support

Hi Tate,

Per your recent meeting with NAHB, I wanted to pass along NAHB's below statement of support for all of the work that has been done by EPA. Please let me know if you need anything else.

Best,  
Liz

Randy Noel, chairman, National Association of Home Builders (NAHB): "Since he was sworn into the Cabinet, EPA Administrator Pruitt has worked tirelessly to reduce and eliminate burdensome regulations that have done little to protect the environment but harmed small businesses, consumers and housing affordability. NAHB commends Administrator Pruitt for his willingness to meet with home builders in Washington and cities across the nation to engage in a constructive dialogue to restore common sense to the regulatory process based on sound science and a respect for states' rights. We are particularly thankful for his leadership role in working to roll back the flawed waters of the United States rule that hurt housing affordability by dramatically extending the areas in which home builders are required to get permits. NAHB looks forward to working with Administrator Pruitt to craft a sensible solution that will protect our nation's waterways and environment and take into account the interests of small businesses and local communities across the land."
