Memo

Riverside Cement

From: *J. J. Rees*

To: *NW Hendry*

Location:

Date: *11-22-74*

Subject: *Calif Senate Bill 2419*
Riverside Cement

In my last conversation with George Borg of Riverside he indicated they had gathered more positive data on spraying of their product and he was going to supply this info to A.D.A./NA and Ed Jenner.

Jenner called me today to advise that he met with Harry Rhodes of U.C. on 11/20 and drafted a submission to Senator Marks requesting exemption of sprayed textured paints, asphalt coatings and resins.

Ed had not heard from or received any information from George Borg therefore the ADA submission to Senator Marks contains nothing about Riverside's product.

Unfortunately when I visited Riverside ^{last week} with Bill O'Reilly he had not set up an appointment and their technical man evaluating 7MF5 was not in. I am not optimistic they will find it suitable as a replacement for Coalings. Will follow with Borg.

Jim
