Job Class: 066 General Mechanic

Sampling Dates: 1990 February 27, March 01

Parameter:

019 Asbestos

Permissible Exposure Limit (PEL):

0.2 f/cc, 8-TWA (OSHA)

**PLAINTIFF'S
EXHIBIT**

AL-172

Interpretation of Results

Tasks surveyed: cutting and welding buss straps in Lines 7 & 8.

Range of results:

%PEL

Asbestos

<0.02 - 0.06

<10 - 30

General Mechanics tested:

Results

0.03 f/cc

0.03

<0.02

0.06

0.03

0.02

REDACTED

Further testing will be scheduled to insure that these two tests are representative of true task exposure.

Note: Insulation Heat still contains
Asbestos!..... we need to get a
substitute material ASAP. Also
Jim Richter told me the material
sometimes falls under the pot & eventually
it goes to the Bath chamber & makes
more dust.
