BATON ROUGE LA 70821

Dear Dr. G. Agostini:

I am happy to respond to your request for membership in the Vinyl Chloride Safety Association. Enclosed is a copy of the bylaws. Notice that the only requirement is for Enoxy Chimica S.P.A. to forward a letter to my attention stating their wish to become a member as well as agreement to abide by the bylaws and designation of a permanent representative from Enoxy with title and complete mailing address for subsequent communications. You will be advised in advance of our future meetings. Enclosed is the latest information concerning our September meeting in Toronto, Canada.

Though our bylaws call for one corresponding representative from each specific organization and one vote per organization at the meeting, each organization is welcome to send as many actual representatives as they wish, although occasionally the question of accommodations has made it the practice to restrict the number of representatives.

The VCSA is made up of manufacturers and users of vinyl chloride monomer. No Satellite organizations such as vendors, insurance companies, manufacturers of catalysts, etc., are permitted as members. Our meetings are entirely open and the discussions particularly concerning accidents and incidents that have occurred during the past year is free and spirited. No formal notes are taken, each representative taking his own notes and using his discretion as to distribution within his organization. A master recording of the entire proceedings is kept upon the advice of counsel but these recordings are not released. No personal tape recorders are permitted. The purpose of all this is to insure that we all feel free to speak with total candor regarding safety problems.

We welcome your representative and firm membership into our organization and look forward to your active participation.

Very truly yours,

A handwritten signature in cursive script, reading "H. G. Olson".

H. G. Olson, Secretary
Vinyl Chloride Safety Association
