Ladies and Gentlemen:

In response to previous requests by the United States Environmental Protection Agency and other entities for information relating to environmental and/or human exposures to perfluorochemicals, and in recognition of a potential threat to human health and the environment, we are enclosing at Exhibit A for inclusion in AR-226 and OPPT-HQ-2003-0012 the following documents relating to direct, severe human health affects among those exposed to certain waterproofing materials that appear to contain one or more fluorochemicals:

1. CDC Morbidity and Mortality Weekly Report (Vol. 55/No.17 (5/506));
2. Minnesota Department of Health - Health Alert (4/3/06);
3. Columbus Childrens Hospital/Central Ohio Poison Center Press Release (2/23/06);
4. Kentucky Health and Family Services Cabinet Press Release (1/31/06);
5. Michigan Department of Community Health Advisory and Questions and Answers (1/05);
6. Michigan Department of Community Health Press Release (1/5/05);
7. North American Congress of Clinical Toxicology Report (9/03);
8. Letter, "Pneumonitis Following Inhalation of a Commercially Available Water Repellent," 39(2) Clinical Toxicology 179-180 (2001);
9. Burkhart, et al., "Pulmonary toxicity following exposure to an aerosolized leather protector," 34(1) Journal of Toxicology: Clinical Toxicology 21 (1/96);
10. Laliberté, et al., "Acute Pulmonary Toxicity Linked to Use of a Leather Protector," 25:6 Annals of Emergency Medicine 841-844 (6/95);
11. Japan Poison Information Center slides (1993);
12. CDC Weekly Report (11/26/93);
13. CDC Weekly Report (1/8/93);
14. CDC Morbidity and Mortality Weekly Report (1/8/93); and

June 6, 2006

Page 3

15. Epidemiologic Investigation Report/Medical Record Information from Consumer Products Safety Commission.

Also enclosed at Exhibit B are copies of various media articles/reports (not for inclusion in the public dockets) relating to the referenced subject matter.

Very truly yours,

Robert A. Bilott
