Dr. Robert A. Kehoe
Kettering Laboratories
Cincinnati 19, Ohio

Dear Bob,

I deeply and sincerely appreciate the time and thought which you gave in your letter to me concerning Bob Young and Bob Page. As regards the former I think the situation can be handled. I can assure you that there will be no training program of residents in occupational medicine for which Ohio State University takes responsibility that I do not run myself. There are a couple of residents at North American Aviation now, one of which is already a lost cause, but with the other I think I can do something. In the future any program out there will have attached to it a thoroughly adequate educational program here in my department designed much along the lines which you and I worked out together in Cincinnati in 1947.

Thanks, also, for the comments with regard to Bob Page. It seemed to me he was going a little haywire, but I couldn't be sure. I shall have no aversion to accepting any money which his unit may wish to give to this school as an educational grant, but I could not advise anyone to put money into his institute at the present time.

I hope you had a good time in England. You sure picked a Hell of a time to go. Give my best to Mrs. Kehoe, and tell her I am sorry I did not see her on my last visit. I hope that you and I may see more of each other in the future. Largent is going to India.

Warmest regards.

Sincerely,

Wm. F. Ashe, M.D.

Professor

Preventive Medicine
