

December 14, 1972

Mr. David C. Greer
Attorney At Law
Bieser, Greer & Landis
8 North Main Street
Dayton, Ohio 45402

Dear Mr. Greer:

I'm afraid my situation is a bit more complicated than you are aware, and that the procedures which you offer for interviewing me do not solve the problem. I think I had better describe my problem and offer a suggestion or two.

I had expected to leave here on December 29 to fly to Palm Beach with Mrs. Kehoe and remain there until January 25th, when I would be prepared to go with your driver to Dayton and to testify on the 26th.

If I must plan to be in Dayton on the 24th or 25th, I must fly home on the day before. This, I can do, if necessary, and I could stay overnight in Dayton on the 24th or the 25th and return home on the 25th or the 26th, dependent upon the day of my testimony - with this time in Dayton, you could interview me at your convenience or you could come to Cincinnati in the afternoon on the 23rd (the day I plan to return from Palm Beach) to go over the case with me.

I cannot conveniently be here on the 19th. Furthermore, Mrs. Kehoe will be with me in Palm Beach and she will expect to return to Cincinnati when I do. I should explain that I had a serious illness and nearly died, despite the fact that I had a minute hemorrhagic lesion, and little or no disability after the absorption of the blood clot. The locus of the lesion (and not the size) was the problem.

I understand the necessity for an interview with you, but I'd like to arrange it so as not to spend any more time than absolutely necessary.

Sincerely yours,

Robert A. Kehoe, M.D.
Professor Emeritus of
Occupational Medicine
