Subject: SHS SRP/ERP... For Review: Manuscripts from Munich Bz Symp

Dear Colleagues -

The October 2004 Munich Benzene Research Symposium included presentations by Shanghai Health Study (SHS) investigators Wong, Liang & Irons. These presentations were not available for review before they were publicly presented. We have received manuscripts from two of the SHS presentations, which are attached for your information and comments. Please reply with any feedback for the authors by 10 January 2005:

Liang et al (2004) An overview of published benzene exposure data by industry in China, 1960-2003.

Wong and Fu (2004) Exposure to benzene and non-Hodgkin lymphoma, an epidemiologic overview and an ongoing case-control study in Shanghai.

With best wishes for the Holiday Season and the New Year,

Jerry M. Rice & Bruce Jarnot
