Attached is a letter dated April 17th from C. W. Sickles, President of International Association of Asbestos Workers. You will notice that Dr. Selikoff is now obtaining health information from every asbestos worker in the United States and that a full report on "Health Hazards in the Trade" will be reported on at the annual convention this September.

I believe it will be possible for me to get a final copy of this survey. In the meantime, however, it is essential that we take all possible action to accelerate the completion dates of our own studies and articles.

Please advise me of the next date you will be in New York so we can discuss our strategy.

John Vyverberg
