NAPA STOCK REGULATION PLAN CLASSIFICATION

American Brakeblok participates in the NAPA plan to protect against obsolescence and to properly balance stock for service and turnover. These procedures are to be followed by NAPA Distribution Centers to expedite the processing of products of NAPA American Brakeblok.

Authorization For Return

Prior authorization must be obtained for disposition. All requests for authorization must come through the Distribution Center as we cannot honor requests directly from the jobber. Requests including quantity and part number are to be sent to:

Abex Corporation
Friction Products Group
P. O. Box 607
Winchester, Virginia 22601
Attn: Manager Customer Relations

A copy of the Returned Goods Notice (RGN) must accompany shipment and a copy mailed to our Winchester, Virginia plant.

All shipments when approved by our Manager of Customer Relations are to be shipped prepaid to our Winchester, Virginia plant.

Obsolescence Policy

(1) Obsolescence Returns will be based on current NAPA Classification.
   (a) Special obsolescence protection is allowed on all oversize lining, industrial sets and rolls listed in American Brakeblok price lists.
   (b) There is no return privilege on Rebuilders material.
(2) Obsolescence Returns shall not exceed 5% of warehouse net purchases during the preceding year. Any return in excess of 5% will be charged a 10% handling charge. All Credits will be in the form of a merchandise credit, at current prices.
(3) Each NAPA Distribution Center will be allowed two Obsolescence (Classification) Returns per year.
(4) No merchandise specially made will be accepted for return.
(5) No merchandise will be accepted unless it was originally purchased from American Brakeblok Division.
(6) Returned merchandise must be in saleable condition and in its original package. Partial sets or rolls will not be accepted.
