PCB

Mr. E. V. John - St. Louis

July 31, 1969

ANNISTON
Mr. Jim Thorne

As you requested Tuesday, I am sending a copy of the Monsanto position statement on polychlorinated biphenyls (PCB) currently being used in reply to inquiries from the press.

Please be sure it is used only internally and not widely distributed. As you indicated, it should probably be brought to the attention of your TSD people.

Inquiries from the nation's trade press should be directed to me or to Tom Ford. If you should receive any inquiry from the local press, be sure and touch base with Tom or myself before replying. This may seem like a lot of red tape, but we want to keep a pretty good handle on this one, and so far it has paid off.

Regards.

E. V. John
