Stucco
needs paint
as much as Wood

Streaks, cracks, gradual disintegration! Unpainted stucco everywhere shows the need for CONCRETA. Stucco, without paint protection, cannot withstand the ceaseless attack of carbonic acid from the air, heat, cold and lingering dampness.

CONCRETA shields stucco against these destructive forces. It also retards the lime in stucco. Its stone-like texture mellows and beautifies the natural surface. Twelve attractive colors and white. Ask your Fuller Dealer, listed below, for a color card. Write for our special CONCRETA booklet—it's free.
