Attached is a printout of topic experts in your department and the names of their visiting safety contactors. The comment cards are arranged in alphabetical order of the safety topic expert. We are also enclosing a copy of the list of persons plantwide who have not been visited. These cards have been sent to the visiting safety contactors again and we hope that they will be able to make contact at an early date; however, if the contact is not made, please assist the visiting contactor in any way you can to see that the contact is made.

Also attached is an outline of the follow-up program that you can use to prepare overhead slides or otherwise communicate with your organization.

Deadline for reporting on the status of follow-up of your attached list will be the next Plant Manager's Safety Board which will be held December 15 at 9:00 a.m.
